- Signing High School Science —
  
  **Principal Investigator:** Judy Vesel  
  **Funder:** National Science Foundation  
  **Website:** [http://signsci.terc.edu/index.html](http://signsci.terc.edu/index.html)

  TERC and Vcom3D are producing a unique set of learning tools that will increase access of high school students who are deaf or hard of hearing to educational content in life and physical science. During this four-year project, the partners will use the SigningAvatar® assistive technology to research and develop two illustrated learning tools. More »
